RESEARCH INTERESTS

I am interested in understanding *what makes good training data* for downstream tasks and representations, especially by leveraging controllable synthetic data. I have broad interests in 3D perception, representation learning, robotics, and generative models.

EDUCATION

Princeton University	09/26 - 05/31
<i>Incoming PhD Student - Computer Science (Advisor: Jia Deng)</i>	
Princeton University	08/22 - 05/26
<i>Bachelor of Science in Engineering - Computer Science</i>	<i>Current GPA: 3.951/4.0</i>

PUBLICATIONS

- ProcFunc: Function-Oriented Abstractions for Procedural 3D Generation in Python.
Alexander Raistrick, Karhan Kayan, Jack Nugent, **David Yan**, Lingjie Mei, Meenal Parakh, Hongyu Wen, Dylan Li, Yiming Zuo, Erich Liang, Jia Deng.
arXiv.
- What Makes Good Synthetic Training Data for Zero-Shot Stereo Matching?
David Yan, Alexander Raistrick, Jia Deng.
CVPR 2026, Spotlight.
- Infinigen Indoors: Photorealistic Indoor Scenes using Procedural Generation.
Alexander Raistrick*, Lingjie Mei*, Karhan Kaan Kayan*, **David Yan**, Yiming Zuo, Beining Han, Hongyu Wen, Meenal Parakh, Stamatis Alexandropoulos, Lahav Lipson, Zeyu Ma, Jia Deng.
CVPR 2024.

HONORS AND AWARDS

Francis Robbins Upton Fellowship	2026
• Awarded to the most outstanding incoming doctoral students in engineering at Princeton.	
Shapiro Prize for Academic Excellence (x2)	2023, 2024
• Awarded to the top 3% of Princeton freshman and sophomore students for academic achievement	
Tau Beta Pi	2024
U.S. Presidential Scholar	2022
Research Science Institute (RSI) Scholar	2021

WORK EXPERIENCE

Graduate Student Researcher , Princeton Vision and Learning Lab - <i>Advised by Jia Deng</i>	2026
Visiting Student , Stanford Vision and Learning Lab - <i>Advised by Jiajun Wu</i>	2025
• Researched visual program synthesis and self-verification with language models.	
Undergraduate Researcher , Princeton Vision and Learning Lab - <i>Advised by Jia Deng</i>	2023 - Present
• Researching synthetic data generation for 3D computer vision tasks.	

SERVICE

Reviewing

- Served as a reviewer for International Conference on 3D Vision (3DV 2026)

Computer Vision Course Assistant

- Co-led overhaul of COS429, Princeton's undergraduate computer vision course.
- Made significant changes to the course syllabus, modernizing over a third of the course content with new material.

Princeton ACM Officer

- Organized a weekly computer vision reading group. I lead discussion on selected papers in computer vision research. We aim to increase engagement into undergraduate computer science research, particularly in computer vision, deep learning, and related subfields.

Teaching Assistant

- COS240 (Discrete Math) - Spring 2024

PAST PUBLICATIONS

Co-Inventor of Electrochemically Driven Carbon Dioxide Separator

2020

- U.S. patent Serial No. 63/027,760, 2020; First to reduce the invention to practice.
